## BAT WATCHING [Mexican Free-Tailed]

One of the most amazing sights in Austin takes place every evening from March to early November, when 1.5 million Mexican free-tailed bats emerge from their roosts under the Congress Avenue Bridge. For more information, go to:

## CAVES

- One idea for cooling off in Summer is *Inner Space Cavern*, Exit 259 off I-35 in Georgetown. It's nice and cool inside the caverns. Inner Space is highly decorated with all types of formations both large and small. There are complete rooms of soda straws (hollow crystalline formations) that hang from the ceiling and resemble regular drinking straws. Other sections have a profusion of delicate helictites that grow in every direction. The entire cave is rich in snow-white crystal flowstone that covers the floors and walls. Call 512-931-CAVE for ticket prices and times or go to:  
[www.myinnerspacecavern.com](http://www.myinnerspacecavern.com)
- *Longhorn Cavern State Park*, south of Burnet, is 645.62 acres classified as a scenic park in the rugged Hill Country. The cave was first formed when the ground levels of water began to drop. As this downward movement occurred, the water began to dissolve the limestone. This downward drainage continued until great underground stream beds were cut out of solid rock. It is this unusual combination of dissolving and cutting by water that makes Longhorn Cavern one of the most unique caves of the world. While in the area, stop in Marble Falls for some home cookin' at the Blue Bonnet Café at 211 Hwy 281. ## DAY TRIPS

There are so many; here are a couple to consider:

- ***Texas Hill Country*** – we love to take a day and drive west to the Hill Country, savoring down-home food, beautiful scenery, and enjoying friendly people. Burnet, Marble Falls, Johnson City, Comfort, Kerrville ... any will do great. But the prime favorite is Fredericksburg, a German town with lots of good eats and crafts, and even a mid-1800's cemetery. Take an extra day and relax at one of the many B&B's in the area. During late March and April, experience the beauty of vast fields of bluebonnets. In June and July, enjoy the taste of fresh peaches. [www.fredericksburg-texas.com](http://www.fredericksburg-texas.com)
- Travel east a bit [mainly between Austin and Schulenburg] and experience the ***Painted Churches of Texas***. Built by 19th century immigrants to this rough but promising territory, these churches transport the visitor back to a different era, a different way of life. Inscriptions on the walls read not in English, but in the mother tongue of those who built them: German and Czech. Cross the threshold of these particular Texas churches and you'll encounter not a simple wooden interior but an unexpected profusion of color. Nearly every surface is covered with bright painting: exuberant murals radiate from the apse, elaborate foliage trails the walls, wooden columns and baseboards shine like polished marble in shades of green and gray. In 1984, 15 of these churches, with their unique style of art, were listed on the National Register of Historic Places.  
[www.klru.org/paintedchurches](http://www.klru.org/paintedchurches)
- ***Spanish Missions Trail*** and ***San Antonio River Walk***– for a great look back to early 1700's Texas, take a day trip to San Antonio. Start at the Alamo mission in central San Antonio and proceed south along the National Parks' Mission Trail to Mission Concepcion, Mission San Jose [the largest], and Mission Espada. The National Park Service has a web site with more information and a detailed map:  
[www.nps.gov/saan/index.htm](http://www.nps.gov/saan/index.htm) . While in San Antonio, also explore the famous River Walk: [www.thesanantonioriverwalk.com/about/the-san-antonio-river-walk](http://www.thesanantonioriverwalk.com/about/the-san-antonio-river-walk)
